#### Love

The Kindness That Links Us to the Unfortunate in Helpful Sympathy.

The Elizabethtown News says that down in the Mays Grove section of Hardin county there was a sight witnessed that has never been seen in Hardin county and it is doubtful if it ever happened before in Kentucky. There were twenty-five plows running in one field of twenty-two acres, and they plowed up the ground ready for seeding in half a day. The cause which prompted this remarkable circumstance was as remarkable as the circumstance. Lon Buchanan's wife is ill, and he was unable to leave her. In consequence he was forced to neglect his farming operations. His neighbors knew his condition, and with a proper spirit of brotherly love and kindness they turned out to the number of and with their own teams and plows broke up his field for him. In the afternoon they moved to another field which he had rented from W. N. Phillips and started to break that up for him. A rain came up and stopped their operations, but later when the ground got in proper condition eighteen of them returned and finished breaking up the field. "Uncle Ben" Phillips fed all the teams and the men who had not brought dinner with them. If we did not live in Elizabethtown, Mays Grove is where we would want to be. People like those in Mays Grove are the salt of the earth and they have not lost their savor.

#### Trust

Buyers are Attempting to Tie Up the Barley Crop.

Under the caption "A Significant Straw," the Georgetown News stated that Tobacco Trust buyers are already active in Scott county. In several other counties from which reports have been received the same course has been adopted. At Barley Society headquarters there the maneuver is regarded as proof of desperation on the part of the trust, but the leaders say they are in no wise dismayed. They say that powers will not be deceived, and that the effort to tie up crops will arouse the suspicion of the independents and enroll many in the pool. The News says: "During the last few days tobacco buyers have been offering Scott county growers from eleven to twelve cents for their 1910 crop of tobacco. This most extraordinary and unusual proceeding seems to us to be a sign of desperation. It does not take a wise philosopher to figure out the real cause back of a 'before you grow it' of tobacco market. Anybody with ordinary intelligence can eas-

ily determine the cause and hoped for effect. Instead of being caught in any such trap the tobacco growers in the Barley district should become more determined to get together to the end that the organization is made stronger the coming year than it has ever been. The very fact of buyers getting into the field at this time to buy the 1910 crop is evidence that the Barley Society has got them on the run. Let the growers 'stand pat' and it will be but a short while until Mr. Trust will wake up and pay a reasonable price for both the 1909 and 1910 crops.

#### Wage War on Houseflies.

This is to be a hard year on the housefly. The Government of the United States has declared war on the pesky "critter" and it is to be an unremitting fight in which the general public is invited to join. In the Department of Agriculture, at Washington, investigations as to the housefly have been going on for several years. The bothersome insect has been found to be an enemy to civilization, a spreader of disease and has been held responsible for typhoid fever and many other ills that man is heir to. Therefore he must go. He and the mosquito have been placed in the same category and both must vanish—that is, if man does what he threatens to do. The Government authorities recommend fly-screens and crude oil for the fly, and kerosene or coal oil for the mosquito. Crude oil costs but a few

#### Eczema-A Germ Disease Can Now Be Cured.

The Medical profession is all agreed that Eczema is a germ disease, but the thing that has baffled them is to find some remedy that will get to the germs and destroy them.

Zenon, the clean, external treatment has solved this difficulty by drawing the germs to the surface of the skin and destroying them. The whole method of treatment and cure of Zenon is explained in an interesting book, on the subject issued by the makers of Zenon. It tells how to cure yourself as of Eczema, Blackheads, Pimples, Headsores, and all diseases of the skin and scalp. Call at Perry's Drug Store for booklet and learn more about this clean, simple remedy that is now recognized the standard treatment for all diseases of the skin and scalp. If

For Congress

HON. HARVEY HELM,

of Lincoln County.

In the trial of the secretary of the

American Sugar Refining Company, in

New York, last week, it developed that

a former superintendent of the above

company, who was convicted several

months ago for the part he played in con-

nection with the underpaid freight, had

been pardoned by President Taft. The

fact that an attempt was made to

keep the issuance of the pardon quiet, is

an indication that something is rotten

in Denmark.

STATE Senator Chas. M. Thomas has

announced his candidacy for Congress

in the seventh district. The contest

certainly to be warm, as recent de-

velopments have brought many of the

Turkey Tobacco Society into action as

being opposed to Congressman Cantrell

on account of his alleged opposition to

the Turkey pool for 1910.

As a suggestion would it not be wise

for congress to deal with the free dis-

tribution of the underpaid freight, say

Democrats of Kentucky should be on

their guard. There is no doubt in the

mind of the observing men that the

organization and to name party nominees

for State offices.—Hampden Glen.

a patent medicine advertisement, but it

was used by a mistake over the story

of a wedding.

You don't expect a woman to re-

member very far back. She isn't

The man who carries a girl's picture

in his watch doesn't always bring her

The biggest fool on earth is the man

who has been fooled twice in the same

way.

There is a vast difference in a girl

who has a boy and getting told to a boy

who has a woman tell her she's old.
